

The AMS Program Code Explained In FFIS & BRIO Terms

Program The program code is a nine digit code which identifies the 4-digit Organization Code, a 2-digit code which is defined differently by each Division, the 2-digit program group, and the 1-digit Budget Fiscal Year. This code allows us to report spending information back to Congress in an orderly fashion.

CRC The Cost Responsibility Center (CRC) is the first four digits of the program code. It corresponds to the Organization Level 1 (ORG1). The CRC indicates the Division/Commodity Group assigned the allocation and is most frequently used to designate a branch, field office, or specific activity. In this example, 2029 is the CRC or ORG1.

Program Assigned The Program Assigned is the fifth and sixth digit of the Program Code. The combination of the ORG1 and the Program Assigned Code is known as the ORG2. These positions are assigned by each individual Program and further breakdown the ORG1. For this example, 02 was assigned by the Fruit and Vegetable Program.
